NEW YORK, Aug. 18.-Precautionary neasures to preserve profits, in the shape of seiling to realize, overbore the new buying demand today and gave the stock market of the day a reactineary tone as a whole. Some question as to the possible effect of the outcome of the peace con-

market of the day a reactionary tone as a whole. Some question as to the possible effect of the outcome of the peace conference at Portsmouth and the large income of the week on the cash reserves of the banks emphasized the disposition to reduce commitments.

The market continued to show a firm undertone, which was manifested by the progressive dullness of the trading as prices declined. The selling, in fact, was not pursued aggressively and the market had frequent periods of recovery. It had its points of positive strength as well, although these were few in number and without the prevailing effect that has been seen on previous days of the week. The pushing up of a few stocks was rather obviously for the purposes of sustaining the rest of the market during the process of profit-taking. The perception of this fact diminished the effect of the advances. St. Paul was the conspicuous instance of early strength, and it was made to open at a wide advance over last right, while active selling began almost immediately at all other points in the list. Late in the day an enormous accumulation of Pennsylvania set in, and this served to hold the level of prices for a time at other points. Reading also went to a new high level during the day.

This about exhausted the list of strong stocks among the active market leaders. Otherwise the pressure to sell was quite general, but was most marked in the listest speculative favorites. The Pacifics were especially affected, so much so as to give rise to a rumor of an intention to issue additional Southern Pacific bonds to second for the weeking factor upon sentiment, and the outbreak of yellow fever at new points in the South also was disliked.

The renewal of the dispute over freight rates between the coast and gulf lines was without official sanction.

The renewal of the dispute over freight rates between the coast and gulf lines was a disturbing factor upon sentiment. Such such so the predominant influence on the market, especially as the sub-treasury has absorbed from the ban

# WEAKNESS MANIFESTED BY SEPTEMBER WHEAT

Stoppage of Rain in Spring Wheat Districts Tends to Lower Prices.

CHICAGO, Aug. 18 .- An early indication of weakness in Northwestern markets was reflected here by an initial decline September wheat of %@14c to 14@14c, at 8214@8214c. A period of selling at the outset forced the near option still further down the scale.

Rains in the spring wheat districts hav-

ing seemingly been responsible for the recent advance, its cessation was the signal for a return of bearish sentiment. Traders who had been led into buying by former conditions proceeded to liquidate their "dings." Prospect of heavier receipts in the Southwest likewise exerted an influence toward lower prices. September declined to \$1\footnote{c}\_{\text{c}}\$ and, although some short lines were covered at that figure, the market acquired no bucyancy. The close was easy, with September a shade above the low point at \$1\footnote{c}\_{\text{c}}\$Si\footnote{c}\_{\text{c}}\$ a loss of \$1\footnote{c}\_{\text{c}}\$. In corn initial prices were easier. The taking on of a large line of old crop September delivery brought about a mild reversal of sentiment and advanced all deliveries. September new, which was down \( \text{c}\_{\text{c}}\$ c at the opening, at \$2\footnote{c}\_{\text{c}}\$ Collection of the contraction of the con

Scattered selling by commission houses caused a shade of a loss in oats. September closed steady, unchanged, at 25c.

Provisions were steady, although prices suffered to some extent from realizing sales by local holders. September pork closed at 17½c down; lard is down 5c and ribs made a net loss of 2½c.

## Boston Wool Market.

Boston Wool Market.

FOSTON, Aug 15.—The wool market is generally quiet, but some deliveries report a fair business in a smaller way. The trade's principal activity is the receiving and distributing of the new wools. Australian and South American wools have not had an active call, while fine pulled wools have sold wherever shown. A little 1996 is contracted in Idaho, Wyoming and Nevada. The prices offered and the attitude of growers do not, at the present promise any general contracting. The foreign markets are extremely strong and stocks are light.

James A. Poliock & Co., stock and grain brokers, 6 West Second South street make public the following letters on the stock market:

Logan & Bryan New York, say "Except for momentary strength after the opening, the market today was distinctly inder pressure from profit-taking, and almost all the leading bear interests uncovered stop orders. Fears of an unfavorable bank statement and a desire to take profits helped the raiders. The market has had a long-continued sharp upturn, and this is the first reaction we have had worthy of name. We have not changed our ideas as to the ultimate outcome or trend of the market. Conditions are sound, and while some further solback may develop, we feel stocks bought on breaks will result in profits."

Dick Bros. New York say: "The market was reactionary, with losses scored by practically all of the leading Issues. The selling was chiefly realizing, to which was added some short selling. A firmer tone in the call money market and less satisfactory news from Portsmouth was beid responsible for the setback, but the truth is that the market was somewhat overbought and a reaction was due. The market vallied from its first decline, but was weak again at the close, final prices being about the lowest of the day."

Hutton & Co., New York, say: "Two factors, the uncertainty of peace negotiations and the heavy loss in cash for the veck noted by the banks, checked the upward trend today. It was noticeable, however, that stocks were well taken on the afternoon declines. The situation as to bank reserves is puzzling. We can look for an unfavorable statement tomorrow unless there is a heavy loan and deposit contraction, and it is only possible that the loss may be partially made up on this account. It is to be expected that trust companies will now come into the market with funds for loaning purposes if necessary. Money is in ample supply there is plenty to go a round as shown by call and time rates. The market may have some further reaction tomorrow and Monday, but we can look for higher pri

he fist would further insure its stability."
Marshall, Spader & Co., New York, say "An early consideration of influence brought about some selling in Landon, possibly based on the status of peace negotiations, which was reflected here by a similar movement and lower prices. There was evidence of rather free realizing throughout the morning session, and finally the market displayed an easier tone than recently expected, as a result of call of loans and the movement of money for the week, which showed a net loss in cash by the banks, approximating \$5,50,000. We see nothing to disturb market conditions, though money rates may harden in the near future."

#### Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all leading druggists.
